PROFESSIONAL SUMMARY

Senior Software Engineer and Engineering Manager with 10 years of experience designing and delivering secure, scalable enterprise digital solutions across financial services, telecommunications, healthcare, and technology. Specialized in Mobile Architecture, Flutter, Android, Kotlin, Java, Dart, digital banking, payment integrations, enterprise system integrations, and CI/CD. Proven experience leading cross-functional engineering teams, defining technical direction and architecture standards, and driving the end-to-end delivery of complex digital banking products. Experienced in building secure financial applications, enabling digital payment capabilities, and implementing AI-Powered engineering practices, including AI agents and AI-driven development workflows, to improve delivery efficiency, code quality, developer productivity, and engineering consistency.

TECHNICAL EXPERTISE

- **Mobile Engineering & Development**:
  Flutter, Dart, Android (Kotlin, Java), iOS fundamentals, Cross-Platform Mobile Development, Mobile Application Architecture, Performance Optimization
- **Software Architecture & Design**:
  Clean Architecture, MVVM, MVP, MVC, SOLID Principles, Design Patterns, Object-Oriented Design, Scalable Application Architecture
- **FinTech & Digital Banking**:
  Digital Banking Platforms, Payment Integrations, Digital Wallet Provisioning (Apple Wallet, Google Wallet, Samsung Wallet), Secure Payment Experiences, Financial Services Applications
- **AI-Powered Engineering & Developer Productivity**:
  Large Language Models (LLMs), AI Agents, AI-Powered Development, GitHub Copilot, OpenAI API, Model Context Protocol (MCP), AI-Driven Development Lifecycle (ADLC)
- **DevOps, CI/CD & Engineering Tools**:
  Azure DevOps, CI/CD Pipelines, Git, SonarCloud, Automated Deployment, Code Quality Management
- **Testing & Quality Engineering**:
  Espresso UI Testing, Unit Testing, System Integration Testing (SIT), Test Automation, Code Quality Analysis
- **Data & Backend Integration**:
  MySQL, Microsoft SQL Server, REST API Integration, Enterprise System Integration
- **Analytics & User Engagement**:
  Firebase Analytics, Google Analytics, CleverTap, User Behavior Analytics, Engagement Optimization
- **Agile Delivery & Collaboration**:
  Jira, Agile Methodologies, Scrum, Version Control, Sprint Planning, Cross-Functional Collaboration
- **Real-Time Communication & Open-Source Technologies**:
  XMPP (Extensible Messaging and Presence Protocol), SIP (Session Initiation Protocol), Smack XMPP Client Library, Kamailio SIP Server, Linphone VoIP Platform

PROFESSIONAL EXPERIENCE

FINANCE HOUSE | Abu Dhabi, UAE
Engineering Manager | Dec 2024 – present

- Lead a cross-functional engineering team, owning technical direction, architecture guidance, engineering standards, team development, and delivery across multiple digital banking products.
- Lead architecture and engineering delivery for five retail and corporate digital banking applications, ensuring scalability, security, performance, maintainability, and high-quality customer experiences.
- Provide technical leadership, mentorship, and engineering governance across mobile and backend teams while establishing consistent architecture and delivery standards.
- Architect and implement a multi-agent AI-Powered Development Lifecycle (ADLC) framework spanning requirements intake, development, testing, documentation, and release workflows.
- Drive engineering productivity initiatives using AI-Powered development, automation, modern development practices, and continuous improvement across the software delivery lifecycle.
- Collaborate with product owners, security, compliance, business stakeholders, and technology teams to align engineering execution with business objectives and regulatory requirements.
- Support technical planning, solution architecture, delivery prioritization, risk management, and cross-team coordination for strategic digital banking initiatives.

Mobile Team Leader | Sep 2022 – Dec 2024

- Led mobile engineering delivery across multiple retail and corporate digital banking applications, providing technical direction, architecture guidance, code quality standards, and mentorship to the development team.
- Led the design, development, and delivery of secure, scalable mobile banking applications using Flutter Framework.
- Defined mobile architecture standards and engineering best practices to improve maintainability, performance, scalability, and code quality.
- Implemented digital wallet provisioning integrations across Apple Wallet, Google Wallet, and Samsung Wallet, enabling secure tokenized payment experiences for customers.
- Contributed to major digital payment initiatives, including Aani instant payments and other regulated banking integrations across Finance House digital channels.
- Mentored mobile engineers, supported technical decision-making, reviewed implementation approaches, and promoted consistent engineering practices across the team.

DA STUDIO | Dubai, UAE
Software Engineer | Dec 2021 - Sep 2022

- Delivered Abu Dhabi Art mobile application for Abu Dhabi Ministry of Culture and Tourism, leading requirement gathering, design, and implementation.
- Developed features for the Art Dubai mobile application, supporting the digital experience for one of the Middle East's leading international art fairs.
- Developed and enhanced features for a large-scale social and messaging application serving users in France.

DIGITAL WINK | Mersin, Turkey
Flutter Developer | Full-time: Dec 2020 – Nov 2021 | Part-time: Dec 2021 – Sep 2022

- Developed multiple cross-platform apps using Flutter with clean architecture and efficient state management.
- Integrated payment gateways (Visa, MasterCard, Mada) and improved map-based routing algorithms.

MEDICUS AI | Austria, Vienna
Android Developer | Nov 2019 - Nov 2020

- Designed and developed new modules for healthcare apps in partnership with Roche and Central Health.
- Eliminated memory leaks (100% reduction) and optimized app reliability and UX.

SYRIATEL MOBILE TELECOM | Damascus, Syria
Mobile Application Developer | Sep 2016 - Oct 2019

- Developed Syria's first social and chat applications with voice and video calling.
- Led a small engineering team to deliver enhanced versions of enterprise apps.

EDUCATION

Damascus University - Faculty of Information Technology
Software Engineering | 2018

KEY PROJECTS

- **FH Personal App** - Digital banking app enabling card management, biometric authentication, local/international transfers, bill payments, Aani instant payments, and Apple Wallet integration. Served thousands of active users across the UAE.
- **FH Business App** - Corporate digital banking platform for UAE businesses, enabling multi-currency deposit management, local/international transfers, WPS payroll processing, and role-based access control for enterprise users.
- **investnation App** - Retail investment platform enabling users to start investing from AED 250 with portfolio options (Saver, Flex, Growth) delivering projected returns of up to 7% annually. Licensed by ESCA under Finance House Group.
- **Dhabi App** - Digital banking platform for personal and business customers, supporting account opening, savings and fixed deposits, international transfers, and global payments through a secure mobile-first experience.
- **Abu Dhabi Art App** - Official mobile platform for the Department of Culture and Tourism – Abu Dhabi (DCT Abu Dhabi), enabling users to explore art fair highlights, discover artworks and exhibitions, and engage with Abu Dhabi's year-round visual arts program.
- **Art Dubai Apps** - Official mobile applications for the Middle East's leading international art fair, providing visitors with access to exhibiting galleries, artworks, event schedules, interactive maps, and VIP program experiences.
- **WashCloud App** - AI-driven laundry platform featuring smart delivery tracking and digital customer experience capabilities.
- **Link App -** One of the first Syrian chat applications, providing encrypted messaging and real-time voice and video communication capabilities**.**

LANGUAGES

- **Arabic** (Native).
- **English** (Professional working proficiency).

AWARDS

- Certificate of Appreciation – Finance House (2025): Development of the new investnation Credit Card.
- Certificate of Appreciation – Finance House (2024): Contribution to Oracle Cloud Infrastructure migration.
- Certificate of Appreciation – Finance House (2023): Outstanding performance in digital delivery.
- NPSS Project Completion Award – Finance House (2023).
